Control Runner

## The ultimate Windows shortcut to your files and applications.

Bypass Start Menu madness and overloaded desktops.

Control Runner gives you a straightforward, easy-to-manage alternative to unmanageable Start Menus and desktops covered with current documents. Just create and discard Control Runner Groups of the applications you use and the documents you're working on as needed.
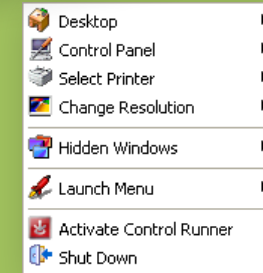

The documents and apps you need, fast.

With Control Runner, a quick click on the Control Runner icon in the System Tray gets you the information you need, when you need it. Create groups of reference documents, special-purpose applications and hard-to-locate Windows utilities.
